

Blessing in disguise

by Max K. (8c)

This is the love story of John and Root.

John is 15 years old and has black hair, is really big and has blue eyes. He likes to play basketball with his friend Raul. John's hobby is ice hockey and playing video games. Let's get to Root, she is 15 years old and has beautiful brown hair and nice blue eyes. She likes to play tennis and she is really popular at her school and has a lot of friends.

John is new on the International West Side High School in Washington DC, because his father has found a better job here. In two days, there is going to be a school trip, this is the perfect chance for John to meet his classmates. Especially Root, she is the most beautiful girl in the class. John fell in love with her and would like to get to know her better. But first, it is lunch time and is John sitting alone at his table but not for long because one boy wants to sit next to him. This boy is Chris he wants to show John around the school.

TWO DAYS LATER

Today is the class trip, it is camping in the forest near Washington DC. It is a long drive to get there. Once there, the teacher divides them into pairs of two. John is in a team with Root to collect wood for the campfire. He is so happy. After a while Root asks how John likes the school? He answers shyly that he likes the school a lot. It is getting dark when they notice that they got lost. At first, they both panic, but then they make themselves a romantic campfire and warm up. Before they fall asleep arm in arm, they tell each other something they noticed: that they have a lot in common. The next morning, the teacher finds them and brings the two back to the camp. When they get back they are asked by their classmates about their disappearance and they tell them that they are a couple. Everyone is happy for the new couple and wishes them all the best.

The End
