

Paul, Jacky and football

by Tom B. (8c)

Paul is 14 years old and plays football very well. His team plays in the highest youth league. For the girls in his class Paul is a star, because he's such a good football player. But Paul only loves one girl in his class, her name is Jacky. Jacky has often been to games of Paul and his team and is very proud of him. One day Paul asked her about a date and she answered with yes. Jacky has a brother called James and he doesn't like Paul, as he's jealous of him because he's a better footballer than himself. Jacky's father is also against Paul, because he is not very good at school. The father doesn't know anything about Paul's and Jacky's date. That's why James had told his father about it. When Jacky came home she had a lot of trouble with her parents.

One day Paul had a game against the leading football team and there were also scouts from clubs like FC Liverpool, Manchester United and Chelsea London FC on side of the field. Two days after the game Paul receives a request from Manchester United and Liverpool and he is invited to a trial training session at both clubs. The clubs pay the night and the flight for two people. Paul wants to go there with Jacky and without their parents, his parents think that's okay, but Jacky's parents won't allow it. That's why they want to fly there secretly without Jacky's parents noticing. One week later, they fly to Manchester and Paul is super excited about the training and the team. But they have a problem, because Jacky's parents are missing Jacky and go to the police. But Jacky and Paul don't worry about that. Paul's time has come. At first, he has a private talk to the trainer of Manchester United's youth team and after that the trial training starts. One day later Paul calls the trainer and tells him, that he would go to Manchester United. The trainer is happy and Jacky and Paul fly back home and have a lot to explain to their parents.

After many explanations Jacky's parents understand that she loves Paul. On Sunday evening the time has come, Paul asks Jacky if they want to be together and she is very happy about that. They are very happy in their relationship and every girl in the class is jealous of Jacky. Paul cancels the trial session at Liverpool, because he wants to play for Manchester United. But now the only question left, is the move to Manchester. But Jacky's family has understood that she really loves Paul and has decided to move to Manchester as well. The parents of Paul and Jacky have a conversation and have decided that they are going to buy a two-family house in the city of Manchester.

Half a year later, the move to the new city is done and Paul has arrived well in the new team. His new best friend is Joshua and Joshua's sister is a very good friend of Jacky. Paul and Jacky love each other and she will support him as best as she can.

The End
